

Supporting Education, Economic Development and Community Giving

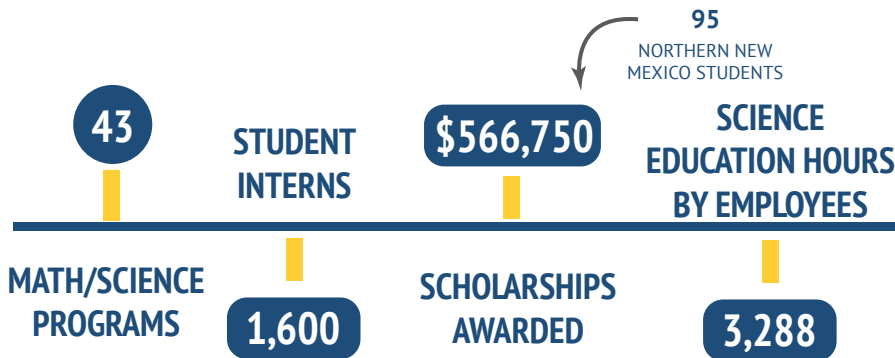

EDUCATION

Los Alamos is committed to investing and partnering in science, technology, engineering, and math (STEM) education initiatives and programs that have a positive impact on student achievement while addressing community pipeline and regional workforce needs. Since 2006, Los Alamos National Security, LLC (LANS) has invested \$12.7 million in STEM education in the region.

UNIVERSITY PARTNERSHIPS

LANS invests to meet our institutional goal of developing the workforce of the future with the following Northern New Mexico partners:

- Luna Community College
- New Mexico Highlands University
- Northern New Mexico College
- Santa Fe Community College
- University of New Mexico–Los Alamos
- University of New Mexico–Taos
- LANL Foundation

MATH AND SCIENCE ACADEMY

More than 500 regional K-12 teachers have participated in our Math and Science Academy:

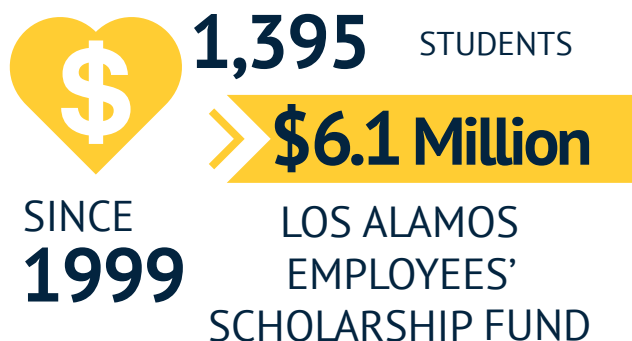

- 60 earned Master's degrees through NMSU
- 8 enrolled in a doctoral program at UNM's Educational Leadership Program
- 4 completed Masters in Native American Rural Leadership program offered through UNM
- 2 completed doctoral degrees

LOS ALAMOS EMPLOYEES' SCHOLARSHIP FUND

In 1998 the Laboratory and its employees, retirees and contractors partnered with the LANL Foundation to create the Los Alamos Employees' Scholarship Fund (LAESF). With contributions from Lab employees and LANS, the fund provides scholarships that support Northern New Mexico students pursuing four-year undergraduate degrees in fields that will serve the region. Awards are based on academic performance, leadership potential, critical skills and career goals. The selection process also considers financial need, diversity and regional representation.

The 2017 scholarship campaign broke fundraising records, with \$646,661 raised by the Laboratory. A total of 998 Laboratory employees, contractors and visiting scientists contributed \$396,661, and Los Alamos National Security, LLC (LANS) provided a \$250,000 match of employee donations.

2017 SCHOLARSHIP CAMPAIGN RESULTS:
